» Company Profile

Computace Electronic Company Limited was established as a professional manufacturer of high-quality electrical and electronic connectors and cable termination products in the world-wide market in 2016.

Computace has strong research and development capabilities, extensive production and manufacturing experience, and strict production testing processes. Through cooperation, we provide customers with high-quality products and services.

The company's main products include various circuit board I/O connectors and cable connectors, such as Pin Headers, Box Headers, various USB connectors, and audio/video connectors.

These products are widely used in the fields of automotive peripherals, solar photovoltaic energy systems, communication equipment, household appliances, lighting, machinery, and

Computace Electronic Company Limited has modern, high-precision production and manufacturing equipment and provides one-stop services, including high-speed stamping, precision plastic injection molding, vertical overmolding injection, automatic plug-in assembly, robotic automated soldering, quality inspection, and customized labeling. Additionally, we have established close partnerships with various professional component manufacturers and leading brand distributors worldwide, enabling us to utilize key resources in research, development, and production to manufacture, market, and distribute our products globally. Moreover, various cooperation models, such as OBM/OEM/ODM, can also be used to provide customers with suitable service solutions and professional support.
